INTERNATIONAL BANKING STRATEGIES

CREATE YOUR OWN “INTERNATIONAL PRIVATE BANK”

Legally | Quickly | Conveniently | Inexpensively | Anonymously
Proven Secrets To Wealth

TWO INVESTMENT WORLDS:
WALL STREET VS. YOU
There exists two investment worlds in America: one for Wall Street bankers and one for ordinary citizens. The first investment tier consists of premium investment opportunities of the most lucrative profitability reserved by law for only the most well-connected or wealthiest of investors. The second tier consists of the remaining lesser opportunities available to ordinary citizens, usually returning marginal returns of 2% or less a year, including stocks, bonds, CDs, etc.

Most common investors have never heard of this ‘first-tier’ investment world, but they’ve seen the outlandish billion-dollar bank profits and bonuses and wondered “How is this even possible?” Let Bridgeway Financial show you.

SELF-MANAGE YOUR MONEY
Extraordinary success in investing comes with extraordinary knowledge and access to first-tier opportunities. With Bridgeway Financial’s “investment bank” concept and the ability to act offshore you can gain access to this first-tier world of investment opportunities. The “investment bank” concept puts control of your investment future where it belongs... in your control. Why pay someone else to manage your retirement if you’re capable of making your own investment decisions? Act now to secure your financial future.

WHAT THE GOVERNMENT DOESN’T WANT YOU TO KNOW
Even those who have heard of the premium investments world are unable to gain access to it because by law you must be a bank, insurance company, other exclusive company, or an ‘Accredited Investor’ to invest in this exclusive world. The best investment opportunities are reserved for an exclusive group of the wealthy and well-connected in order to reserve these investments for themselves and reap the outlandish profits and bonuses so evident on Wall Street.

A recent study by the University of Washington School of Business determined that U.S. Senators consistently earn abnormally high returns on their investments. Why is this? The very best investment companies are not allowed to offer common citizen investors the opportunity to invest with them (which is why you have probably never heard of them), or even to accept you as an investor were you to apply. Unless you own a bank, an insurance company or meet the restrictive requirements of being an ‘Accredited Investor’ the most profitable investment companies are required by law to turn you away!
The world of high-return investing is strictly reserved for only an exclusive class of investors, but offers the highest returns available. To well-connected and wealthy investors, investment returns of up to 45% a year are in fact commonplace. World-class investment companies run by award-winning investment professionals are earning extraordinary returns for a select class of exclusive investors. The following companies and their posted results reflect just some of the top 20 CTA Performers in one of the three categories published by the Barclay Managed Funds Report. This listing to the right is just a snapshot sample of several alternative investment databases with a sampling from 6,500 active funds reported on a monthly basis including (but not limited) to Hedge Funds, Fund of Hedge Funds and CTA’s.

Managed investments allow an investor to access the world’s markets through the services of professional money managers. Alternative investment managers utilize a diverse range of financial instruments and are flexible in their investment options. Many alternative investment managers are highly specialized and trade only in their area of expertise and thus produce vastly superior returns.

### 2012 Double Digit Return Examples

(ERAs Qualify)
YOU Owe It To Yourself

A single investment in a professionally traded account can bring access to a multitude of markets that would otherwise be unavailable. Unlike other asset classes where profits depend solely on price appreciation, opportunities exist in both rising and falling markets, in areas all around the world in over 50 different markets. But less than 4% of Americans will ever access these exclusive opportunities.

FURTHER FREEDOM & SELF-DIRECTION

Independent-minded investors have been able to achieve substantial returns for years. From lease options to tax liens, knowledgeable investors holding special assets have flourished while the mainstream has had neither the access nor the knowledge to participate.

Example:

- A Bank in the Caribbean paying 6% percent interest.
- A London fund paying 12% percent interest.
- Publicly traded blue chip stocks paying 9% to 19% dividends.
Create Your Own “Investment Bank”

The “Investment Bank” concept consists of attracting individuals with retirement savings, offering them attractive rates of returns, and utilizing these funds to increase your output and profitability.

Lending institutions, insurance companies, and venture capitalists have been using similar concepts for years.

By using self-directed IRAs you can utilize this concept which will allow you to be more profitable and stay ahead of inflation.

Simply move funds from your existing IRAs to a self-directed IRA, set up the International Business Company (IBC) and then move funds to your “investment bank.”

Earn 5% to 20% of profits as the investment banking manager of your offshore company. You can participate in further profits by also being an investor. For asset protection and tax reduction, use a Nevada Corporation as the investment banking manager thus replacing yourself personally.

DISCLAIMER: All information contained in this brochure is for education purposes only. Bridgeway Financial Corporation™, and its agents and affiliates, cannot and will not render any legal or tax advice of any kind, unless said agent or affiliate is duly licensed by the applicable state and/or federal authority to give said advice.

DISCLAIMER: This information does not constitute an offer to sell any investment. Any investment must be made only by an authorized representative of the investment fund. Bridgeway Financial Corporation™ is not a United States Securities Dealer, Investment Advisor or Broker. This brochure and related documents are never considered to be solicitation for any purpose in any form or content.

DISCLAIMER: Past results are not necessarily indicative of future results. Trading in commodity futures and options is speculative in nature and involves the risk of loss of one’s entire investment or more. Prior to investing with any CTA, read carefully any CTA disclosure document.

PROHIBITED TRANSACTIONS: A prohibited transaction is any improper use of your IRA account by you, your beneficiary, or by any disqualified person. The following are prohibited transactions: Borrowing money from your IRA • Selling personal property to your IRA • Receiving unreasonable compensation for managing your IRA investments • Using your IRA as a security for a loan • Purchasing property for personal use with IRA funds • Purchasing collectables with IRA funds • Purchasing assets owned by yourself, your spouse or other family members with IRA funds • Your business may not be located on the property owned by you

Bridgeway Financial Corporation is not a broker or agent for any particular investment, but we share information with our clients about changing market conditions and attractive investment opportunities as we become aware of them.
