**Incorporate Even If You Don’t Have A Business**

**FLEXIBILITY**

A corporate structure allows you to place real estate or investments under separate Limited Liability Companies (LLCs). You retain complete control of all your investments. But if one runs into trouble it won’t suck the profits away from the other successful investments. Without incorporation, your profitable ventures would have to pay the debts of any unsuccessful venture.

**ESTATE BENEFITS**

Because a company’s existence is perpetual, your Nevada company can outlive you. By using estate-planning strategies that are only possible with a Nevada-based company, you will be able to pass your estate to your heirs without going through probate. You can save both legal costs and estate taxes.

**asset protection**

Under the U.S. legal system, the deck is stacked in favor of the Plaintiff and against you the Defendant. Many lawyers now specialize in contingency fee lawsuits in which they are paid a percentage of whatever you win for their clients. This encourages the filing of frivolous lawsuits. Since a new lawsuit is filed every two seconds, the average business owner or professional person stands a chance of being sued several times in his or her lifetime. Any suit, no matter how apparently worthless, could result in a ruinous judgment.

**Complete Privacy**

There is a reason why all successful people choose to incorporate: it permits them to manage their assets anonymously and their private corporate lives are never made public. Only in Nevada can a company be set up so that you own and control your company, your identity and ownership can remain a total secret. Some individuals choose to have separate companies for their large assets such as a brokerage account, rental property, boat, or recreational vehicle.
