Americans Are In Greater Danger Than Ever Before.

The Institute For Legal Reform indicates that a new lawsuit is filed every 2 seconds. That means 19 million lawsuits will be filed in the U.S. this year alone.

With a weakened economy, millions of Americans are looking to increase their earnings by less than honorable means, and lawsuits are flooding the courts. This is a real threat to you. The law gives government agencies the right to seize your property prior to due process. You now have to go to court and sue just to get your assets back.

The Time To Act Is Now!

SECURE YOUR FUTURE WITH THE SECRETS OF THE WEALTHY

The richest American families have long combined three money making concepts to create wealth: compounding interest, tax deferral and asset protection. These secrets, when used in conjunction with offshore companies, effectively structured LLCs, Family Foundations, Trusts and Nevada entities are the cornerstone for acquiring and preserving the wealth of these family dynasties.

You too can insulate your wealth from lawsuits and seizure while obtaining the rewards that go with investing. You too can secure your financial future alongside the wealthy and enjoy the freedom and satisfaction of a long and prosperous lifestyle.

Insulate Your Wealth Offshore to Avoid Confiscation and Seizure

Why Take A Chance On Unfairly Losing Everything?

Maximum Asset Protection

Under the U.S. legal system, the deck is stacked in favor of the plaintiff and against the defendant. That's why so many lawyers specialize in contingency fee lawsuits in which they are paid a percentage of whatever they win for their clients. This encourages the filing of spurious lawsuits. Since a new lawsuit is filed every two seconds, the average business owner or professional person stands a chance of being sued several times in his or her lifetime. Under the current system, any suit, no matter how apparently worthless, can result in a ruinous judgement.

NEW FINANCIAL STRATEGIES

Today's savvy investors are looking for high-yielding opportunities in private placements, initial offerings and offshore companies, and are exploring the exciting world of international double-digit returns e.g. a London fund reporting paying 12% interest, a bank in the Caribbean paying 6% interest in CDs, publicly traded Blue Chip stocks reporting up to 19% dividends. As our client, you too will learn asset protection strategies to set up offshore trading and brokerage accounts, or professionally managed accounts in the Grand Cayman Islands, to access unique opportunities for growth.

Paul Winters was a successful investment banker in Manhattan. He quickly built up a large personal investment account but was worried over litigation due to some of his highly speculative decisions. Anything could go wrong.

He formed a Nevada Corporation, transferred his funds to Nevada, and then formed an International Business Corporation (IBC) and opened up brokerage and bank accounts in the Cayman Islands. He still has full use of his funds and his IBC can easily make the same investments in the United States but now nothing is in his name. In addition, he transferred and re-titled all of his existing bank and brokerage accounts in New York into a Limited Liability Company which are now owned by his offshore company. This allowed him the comfort of leaving funds in the United States while still having the ability to transfer his funds at a moments notice to 'safer waters.'

Without Asset Protection You Could Lose Everything

For Onshore Protection You Need Offshore Protection

Why Offshore Asset Protection

- Protect your assets from lawyers and lawsuits
- Create complete financial privacy
- Learn how to potentially earn up to 12% per year (IRAs qualify too)
- Eliminate your risk of forfeiture or seizure
- Preserve your estate for your heirs
- Insulate wealth using offshore accounts

JUDGMENT-PROOF YOUR ASSETS TO AVOID RUINOUS LAWSUITS

By forming an International Business Corporation (IBC) you create a legal entity which hold assets, such as your home, cars, rental properties and savings accounts, and shelters the identities of the beneficial owners. One of the best ways to do this is to transfer your money, investments, vehicles, property, and other assets into effectively structured LLCs owned by an international offshore company. This is a legal entity that you control.

Lawyers for plaintiffs will only initiate litigation when they believe it will pay off, not against judgment-proof defendants. The best way of getting a plaintiff's lawyers to accept a token settlement is to convince the lawyers that your assets are truly beyond their reach.

JUDGMENTS OF U.S. COURTS ARE NOT RECOGNIZED

Even if the judgment of a U.S. lawsuit should somehow target your IBC, foreign courts do not recognize U.S. court judgments in offshore havens such as the British Virgin Islands or Cayman Islands.

This ability to protect your assets is the reason many doctors, business professionals, and owners of small businesses have discovered IBCs as an effective way to protect assets.

Once a lawsuit has been filed, the law will not allow you to move your assets. You must act ahead of time to protect what you own before it comes under legal attack.
