## WHO SHOULD HAVE A BUSINESS PROTECTION PLAN?

The obvious answer is anyone whose combined Business and Personal taxes are cutting deeply into income. If you look at the money that is going to the government and think, "I could do so much more with that than they will," you need a Nevada corporation. As the diagram below illustrates, Shareholders are protected under a "Nevada Operating Corporation" and Owners and Members under a Nevada Leasing LLC.

## PLAN ADVANTAGES

- Protect yourself from corporate liability
- Tax planning on both corporate entities
- Obtain charging order protection to protect assets and turn your business into a financial fortress
- Protect yourself from personal liability in both corporate entities
- Lower income taxes using two corporate entities
- Nationwide network of financial advisors and planners
- Become a Nevada Corporation and Nevada Limited Liability Company
- Create an asset protection strategy to encourage out-of-court settlements within Insurance policy limits
- Prevent government agencies from seizing your wages or property without due process of law
- Unlimited Consultation on both Corporate Nevada entities

Nevada is the only state that provides "Charging Order Protection" for both its corporations and LLCs. This prevents personal creditors from seizing your corporate shares and taking control. Nevada law clearly makes the actions of a corporation's representatives *exempt* from personal responsibility except in cases of outright fraud.

**The best asset protection is to incorporate...the best place to incorporate is in tax-free Nevada.**

The Bridgeway Business Protection Plan is everything you need to operate legally with complete Asset Protection and tax savings.

*It is quick and very affordable.*
