CREATE YOUR OWN PRIVATE BANK

Legally | Conveniently | Inexpensively | Anonymously

# PROVEN SECRETS TO WEALTH

Americans today are living longer than ever before. With this longer life comes longer retirement. In fact, the National Commission on Retirement has forecasted that by 2040 the average retirement will last 17.4 years, a full three years longer than today. In addition to this, if inflation continues to increase as it has historically (2-3% annually), we can be assured of decreased purchasing power in the future. Combine these factors with the inabilities of Social Security and we have an atmosphere detrimental to retirement investing, capable of *eroding the buying power* of your retirement savings plan.

Some of the richest American families have combined three secret money making concepts to create their wealth -- Compounding Interest, Tax Deferral and investment in Real Estate and other savvy products. These secrets, when used with **Charitable Trusts**, **Family Foundations** and **Private Banking Concepts** have been the cornerstone for preserving the wealth of these family dynasties.

## FREEDOM AND SELF-DIRECTION

Independently minded investors have been able to achieve *substantial returns for years*. From lease options to tax liens, investors holding special assets have flourished where the mainstream has had neither the vision nor the knowledge to comprehend.

## SELF-MANAGE YOUR MONEY

Success in investing comes from hard work and knowledge. Working with special assets can enable an investor with this ability to better understand the market of the investment and its potential. *Why pay someone else to manage your retirement* when you are capable of acquiring substantial retirement savings by investing in what you know and understand?

## FANTASTIC RESULTS

Combining your investment strategy with the use of an IRA can be an *incredible investment pairing*. Through the utilization of the IRA's tax-deferred qualities, investment earnings are able to grow at a *much faster* rate than earnings created without this tax status.

## TAX FREE INVESTMENTS

When you combine the magic of compound interest with tax free investments, you can powerfully accelerate the rapid growth of money by investing with **pre-tax dollars**, instead of using **after tax dollars**.

## OTHER GREAT INVESTMENTS:

In addition to listed investments, our clients have the ability to invest in special assets such as:

Structured Settlements  
Real Estate  
Equipment Leasing  
Judgments  
Stocks, Bonds, Options

Promissory Notes  
Viatical Settlements Tax  
Sales Certificates  
Mobile Homes  
Factoring Receivable

Deeds of Trust  
General Partnerships  
Mortgages  
Limited Partnerships  
Mutual Funds

## ASSET PROTECTION

Self-directed IRA accounts are federally insured. Using a Nevada LLC as the “sole private manager” of your retirement account, your funds are protected as your earnings grow. Imagine the power of “own nothing but control everything” as Howard Hughes believed. Protect your investment dollars in a tax sheltered asset protection Limited Liability Company.

## GET THE MOST FROM YOUR NEVADA LLC

Move funds from your existing IRA to a self-directed IRA. Set up your LLC and then move funds into the Limited Liability Company. ***You now have control*** to move funds into high yield investments tax free and compound your earnings.

Insulate your wealth from liability, confiscation and seizure using a single member LLC directly owned by your self-directed IRA account.

Using funds from your self-directed IRA and LLC combination, you can load up your *tax free and deductible investment* year after year, bringing down the mortgage balance from 30 years to 120 months.

Qualify your next investment as a large down payment on real estate. Learn how the real estate professionals are doing it.

Guarantee your complete financial privacy by using your self-directed IRA and LLC in combination to protect you from lawyers and lawsuits.

## YOUR INVESTMENT COMPANY

You can use your Nevada LLC as your investment company with the only member partner being your IRA. You become the “funds manager” like the big companies. Create your own “Private Bank” where you, not someone else, has decision control. Use this Private Banking concept just like the professionals on Wall Street. Join with others and pool your investments.

**WE PROVIDE FIRST CLASS SOLUTIONS FOR  
INDIVIDUALS & FAMILIES**

*"Payroll taxes and other income, including interest on investments, will continue to flow into Social Security, but will be insufficient to pay full benefits at some point during the next half century."*

## CREATE YOUR OWN PRIVATE BANK

The "Private Bank" concept consists of attracting individuals with retirement savings, offering them attractive rates of returns, and utilizing these funds to increase your output and profitability.

Lending institutions, insurance companies, and venture capitalists have been using similar concepts for years.

By using self-directed IRAs you can utilize this concept which will allow you to become more profitable and stay ahead of the competition.

Simply move funds from your existing IRA to a self-directed IRA. Set up your LLC and then move funds into this Limited Liability Company.

*You can move fast into any investment.*

Prohibited Transactions: A prohibited transaction is any improper use of your IRA account by you, your beneficiary, or by any disqualified person. The following are prohibited transactions: Borrowing money from your IRA • Selling personal property to your IRA • Receiving unreasonable compensation for managing your IRA investments • Using your IRA as a security for a loan. • Purchasing property for personal use with IRA funds. • Purchasing collectibles with IRA funds • Purchasing assets owned by yourself, your spouse or other family members with IRA funds • Your business may not be located on the property owned by your IRA.
