YOU'VE EARNED IT, NOW KEEP IT

AMERICANS ARE IN GREATER FINANCIAL DANGER THAN EVER BEFORE

The Institute For Legal Reform reports that a new lawsuit is now filed every two seconds. Over 19 million U.S. lawsuits will be filed this year alone. With a weakened economy, millions of Americans are looking to increase their earnings by less than honorable means and lawsuits are flooding the courts. This is a real threat to you. Laws now grant government agencies the right to seize your property prior to due legal process. You'll now have to go to court and sue just to get your assets back. Like you, Americans now live in constant financial peril.

REDEFINE WALL STREET... FOR YOURSELF

Wall Street banking firms and executive insiders have always reserved for themselves the most profitable and safest opportunities. By limiting access, using investments laws and imposing regulations they deny regular "Main Street" investors those same opportunities. Until now, regular investors have neither had the special access or "insider" knowledge to profit from the most lucrative yet safest opportunities and specialized funds available. Bridgeway Financial Corporation, an industry leader in financial strategies, now brings our clients exclusive new access to these opportunities for reaping outsized returns far surpassing the ordinary.

Today's savvy investors are exploring the world of double-digit returns and looking for high-yielding portfolio opportunities in specialized funds, private placements, initial offerings and offshore international

companies e.g. a London fund reporting 12% interest, a bank in the Caribbean reporting 6% interest in CDs, publicly traded Blue Chip stocks reporting up to 19% annual dividends. As a Bridgeway Financial client, access specialized international banking, trading and brokerage accounts and explore similar special opportunities and strategies with the potential for outsized double-digit returns.

THE TIME TO ACT IS NOW!

SECURE YOUR FUTURE OFFSHORE WITH THE WEALTH SECRETS OF THE 1%

The richest American families have long combined three money making concepts to create wealth... compounding interest, tax deferral and asset protection strategies. These secrets, when used in conjunction with Offshore Companies and effectively structured LLCs, Family Foundations, Trusts and Nevada Corporations have been the cornerstone for acquiring and preserving the wealth of these family dynasties. With the Bridgeway Asset Protection Plan™, you too can compound interest, defer taxes and insulate your wealth from lawsuits and seizure while obtaining the rewards that go with investing. Secure your financial future alongside the wealthy and enjoy the freedom and satisfaction of a long and prosperous lifestyle.

WE PROVIDE FIRST CLASS SOLUTIONS

Thomas McEvilly was shocked to learn how much he had been missing out on. By setting up an International Business Company (IBC), he could conveniently access offshore high-performing portfolios yielding double-digit returns. Then Thomas realized that by offsetting the mortgage payments on his home, simply by borrowing low and earning high, he could leverage his financial position. When it became clear to Thomas how much his financial situation was growing, he was simply overwhelmed.
